The Dreams in Africa Foundation: “*Dream BIG, aim high and live your dream!*”

Background

Everyone has its own ‘dreams’ and the right to follow these dreams. This may sound obvious but unfortunately, not everyone gets the chance to do so in his life. Most of

the people in a major part of the world, who were born in an underdeveloped area, do not have any options at all. They will have to make the best of it and have to accept their situation due to the cycle of poverty they are in. The Dreams in Africa Foundation wants to promote that more people are willing to devote themselves to achieve a better future for the most vulnerable, neglected and needy communities (both parents and children) in Africa. You can, for example, participate in the programmes initiated by the foundation. The foundation aims first and foremost to be completely transparent towards sponsors and participants about what happens with their devotion and donations.

The Dreams in Africa Foundation was founded in September 2010 by Noor van Hout, who has been in Africa several times (2007: South-Africa, 2009: Ghana, 2010/ 2011: Botswana, 2012/2013: Ghana) At the moment she also lives and works in Africa.

Vision

Development cooperation is very useful, provided that it is done the right way: small-scaled, demand-driven and in close collaboration with the local people. If everyone contributes a bit, it is possible to make a difference.

Mission

The mission of The Dreams in Africa Foundation is to enhance the position of the most neglected , vulnerable and needy communities in development countries, so that their standard of living improves.

Goal

The Dreams in Africa Foundation aims to start and support local small-scaled development projects in Africa.

Core actives

In order to achieve our goal it is necessary to enhance the ability of the people to do things independently. This is done by;

- improving and offering education and inform people about, for example, (medical, agricultural, financial issues and issues in ICT)
- giving micro credits and scholarships;
- supporting and starting sports activities and self-supporting projects.
