

Newsletter: Dreams in Africa July 2013

Dear friend of The Dreams in Africa Foundation,

We are aware that you have not received a newsletter from us quite a long time, however now things will be a bit different. With the support of our IT specialist, Mr. Gert Witte, we have chosen a new type of newsletter online. It has an improved design and sending should go much more smoothly than before.

Meanwhile, I have been working for 3 months for a Montessori School called HIPS Charity Organization (Non-Governmental Organization) in Ghana. In my position as 'Project Manager Education & Development', I am responsible for improving the quality of education within the nursery, the Primary school and the Junior High School. My main responsibilities include giving support and guidance (knowledge transferal, training and advice) to local employees, so that they have the opportunity to further develop themselves.

You can follow HIPS on Facebook: <https://www.facebook.com/hipscharity.org>

In addition to that, I coordinate and guide international volunteers/interns, because I personally believe that such a work experience in a developing country significantly contributes to everybody's personal development and professional growth. It is also important to positively influence the worldwide debate around developmental work and support developing countries by creating public support for this issue in first world countries.

For more information see our website: <http://dreamsinafrica.org/en/programmas/>

With this newsletter we are aiming to keep you up-to-date on all our activities in Ghana as well as in the Netherlands.

Your feedback is always welcome!

Kind regards,
Noor van Hout
Chairperson Dreams in Africa Foundation

Our new promo video!

With this new video we want to share our vision and this message:

"We are all human beings. All unique, but with many similarities and equal in our core. We do not look at the differences in appearance or race. These don't matter. Not the outside, but the inside matters.

We live in the same world. We are all responsible for taking good care of this world.

Love each other, get together and work together.

Together we can make a difference in this world!"

Camera: Hein van Hout / Joyce Jacobs

Production: Joyce Jacobs <http://joycejacobs.4ormat.com/>

Watch the promo video now:

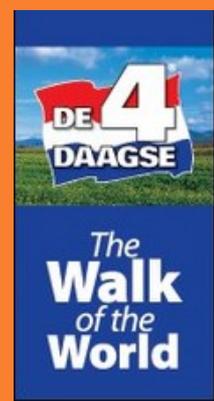

Blisters for Ghana!

The world famous four-day walk in Nijmegen is coming up again! From the 16th of July until the 19th of July, thousands of people from all over the world will be walking 30, 40, or 50 kilometers a day for 4 days straight. Also, our Treasurer, Hein van Hout, is participating in this event again! This year will be the third year he will do this four-day walk to collect money for The Dreams in Africa Foundation.

You can support Hein in crossing the finish line on the last day by donating something for our development project in Ghana. We guarantee that 100% of your donation will go straight to the children in Ghana!
